

Eco P3

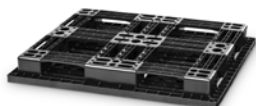

1300 x 1100

Lightweight plastic pallet with the dimensions of a CP 7 chemical pallet

The Eco P3 was developed specifically for the chemical industry and tailored to its logistical challenges: minimizing the risk of damage to the load as well as designing a trouble-free flow of goods. The Eco P3 is a consistent further development of the standard wooden pallet CP 7 – with all the advantages of a plastic pallet. Six broad runners (double deck) protect the cargo from damage, provide secure block stacking, and ensure smooth transport via roller and chain conveyors. The pallet is significantly lighter than its counterpart made of wood and thus offers an attractive price-performance ratio.

Bottom support

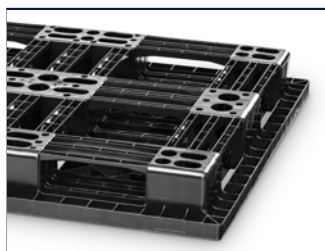

> 6 runners (6R)

Deck options

> open (OD)

Six wide runners have a stabilizing effect when block-stacking.

Safety rims are located inwards to ensure easy stacking.

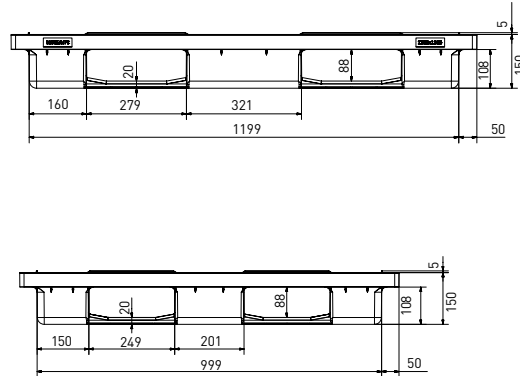

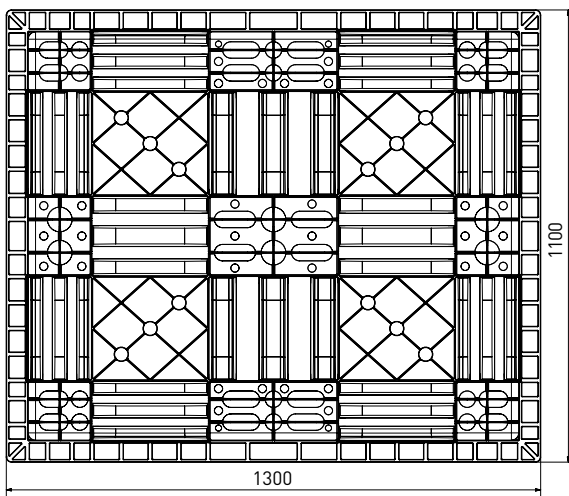

Thanks to its wing design the Eco P3 offers an extra large support surface.

Technical data*1

	Material	Bottom support	Top deck	Dimensions [mm]	Load capacities*2 [kg]			Weight [kg]	
					Static	Dynamic	Racking	HDPE	PO
Eco P3 (OD-6R)	HDPE	6 runners	open	1300 x 1100 x 150	4000	1500	—	11,5	—

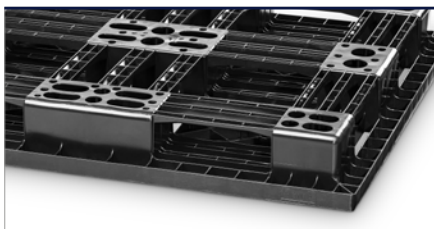

Entry: 4 ways | Nesting height: — | Safety rim: 5 mm

nominal sizes in mm

Options

- Color: [other colors on request*3] > Individual marking*3
- Anti-slip: grommets under deck (12 in total)
- ESD prevention: —

*1 Figures can vary depending on the raw material used and options applied. *2 Guideline values are based both on experience and parts of test ISO 8611, which tests with evenly distributed loads at room temperature (20°C). Varying data may result from different conditions of usage. Your specific requirements can be identified upon request. *3 Minimum quantity required - PO pallets should only be used and stored in a dry environment. We reserve the right to change any of the stated information without prior notice.
