Endur S7.1 1200 x 900

Robust plastic pallet in the special dimensions of $1200 \times 900 \text{ mm}$

The Endur S7.1 is manufactured in the special dimensions of 1200 × 900 mm. It therefore works perfect for products that, given their special size, are either too small for industry pallets or too big for the Euro-size pallets. The pallet is manufactured from impact-resistant PP and is robust, durable, and ideally suited for semi-hygienic applications and for applications with high circulation rates in open and closed pools. It is used in the food and beverage industry, for example, but it is also a popular solution for the transport of intermediate products in areas such as the construction industry.

Bottom support

> 3 runners (3R)

Deck options

> closed deck (CD)

Equipped with safety rim

Available with up to 12 antislip stoppers

nominal sizes in mm

Options

Color:	(other colors on request*3)					
Anti-slip:	safety rim (standard), grommets under deck (12)					
ESD prevention:	anti-static, conductive					

- > Individual marking*3
- > RFID transponders

*¹ Figures can vary depending on the raw material used and options applied. *² Guideline values are based both on experience and parts of test ISO 8611, which tests with evenly distributed loads at room temperature (20°C). Varying data may result from different conditions of usage. Your specific requirements can be identified upon request. *³ Minimum quantity required - PO pallets should only be used and stored in a dry environment. We reserve the right to change any of the stated information without prior notice.
