

Nest M1

400 x 300

Nestable one-eighth pallet for display positionings at the POS

With a size of only 400 x 300 mm, the Nest M1 is suitable for small sales floors as well as product displays with an average speed of sale. Displays can be affixed to the pallet using special locking points. An innovative plug-in system (patent pending) will make it possible to combine the pallets into larger units: e.g. 800 x 300 mm. The conical feet provide the pallet with secure positioning and enough space for transport on a hand pallet truck skid.

Bottom support

> 4 feet (4F)

Deck options

> open deck (OD)

The color can be individually adjusted.

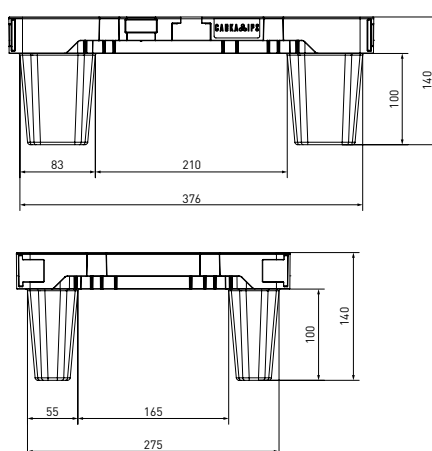

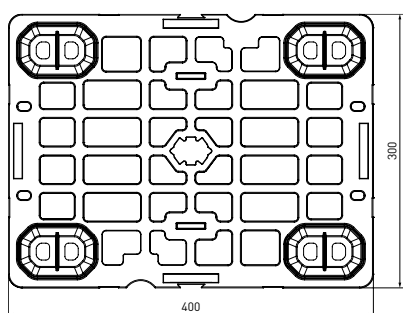

Available in the future: Pallets can be combined into larger units (patent pending).
